

Positively Leading

Explore strategies to positively lead your team

Friday 23rd January 2026

1pm—3pm - Online learning - £55

This session is suitable for SENCOs and teachers leading in the classroom. This includes teachers with a TA team and regular multi-agency meetings within mainstream, special schools, bases and learning centres. Primary and Secondary.

We will consider:

- **Positive language**
- **Modelling positive behaviour**
- **Effective communication**

At the end of the session delegates will feel more confident leading a team of adults.

How do you keep morale in your team when illness strikes and staffing in your class is down?

When behaviours are affecting everyone, how do you keep everyone positive?

How do you sensitively give the messages like 'don't take it personally?' or co-regulation.

When it's chaotic and it feels everyone is doing something different, how do you pull it back and get your team working together?

How do you feel about having difficult conversations?

This workshop will explore ways to lead your team in a supportive way but also creating the culture you want to see.

Jules Daulby

Jules is the Assistant Head at Yewstock School and is responsible for primary and KS3.

Jules leads communication and is the induction tutor for Early Career Teachers.
